ABOUT US

Who we are, what we do, where we do it, when we started, how we do it and why we do it.

06

ECOCOAT COATING SERIES

IGL Coatings are pioneers of low odour and high solids coatings.. Our range of coatings encompass a complete interior and exterior protection for your most prized vehicle.. With an unique blend of the right polysiloxanes, carrier and catalysts, we created a range of coatings that are very easy and safe to use, yet providing excellent quality.

12

ECOSHINE SPEED PROTECT SERIES

IGL Coatings dedication to the environmental cause is shown through its formulation of the Ecoshine Speed Protect Series. Dressings and waxes are formulated from ground up utilizing the highest grade plant based materials that provides incredible surface visual enhancement and protection.

34

ECOCLEAN CLEANING SERIES

Cleaning is all about chemistry and we fully know that. Each of our Ecoclean Cleaning Series are developed to specifically target contaminants and stains on its respective surface reducing the need for physical strength during the cleaning process. They are all formulated to be responsible to the ecological and biological aspect.

ABOUT US

OUR STORY

IGL Coatings are a technology firm based in Asia. We made it our mission to develop coatings that are set to redefine the detailing industry. With the help from Bayer, BASF, Dupont, Shin-etsu and Wacker Chemie, the basic formulations was reinvented into today's ecocoat series.

We launched in 2014, and now we are represented in more than 20 countries and the number is still growing.

We focus our resources on improving our products and business model by listening to the people who uses it. We chart our own course, and relish the freedom to make bold decisions.

We are proudly the pioneer in low VOC and high solids coatings that are so easy to use that people finds it very difficult to believe.

Our marketeers are constantly improving the brand, while our chemist are always innovating, collaborating, and fixing things to make products people love to use with minimal health risk. Behind the scenes, we've got our delivery experts with the aim of lowering logistic cost without sacrificing efficiency.

—ECOCOAT COATING SERIES—

KENZO

IGL Ecocoat Kenzo is a revolutionary paint protection coating that contains 100% silica providing the highest level of gloss and protection and is backed by an official warranty provided and supported by certified IGL Coatings Master Applicator.

It forms a layer of thick coating that radiates a rich and natural glow reminiscent of a bespoke wax while providing unmatched protection. Running your hands across a Kenzo coated car is like touching the soft luxurious silk. It will never be the same again.

AVAILABLE AT APPROVED IGL KENZO MASTER
INSTALLERS ONLY

FEATURES

-  Extreme hydro and oleophobic
-  Radiates a rich and natural glow reminiscent of a bespoke wax
-  Improved marring resistance
-  Improved weather resistance
-  100% silica content
-  Extreme Durability

POLY

Ecocoat Poly is a fast flashing solvent based hydrophobic paint coating. Containing up to 70% silica, it crosslinks to form a hardness of 8H (pencil scale) that amplifies the shine, gloss and protects the paint for up to 24 months.

SKU	Volume
ctpoly-30	30 ml
ctpoly-50	50 ml

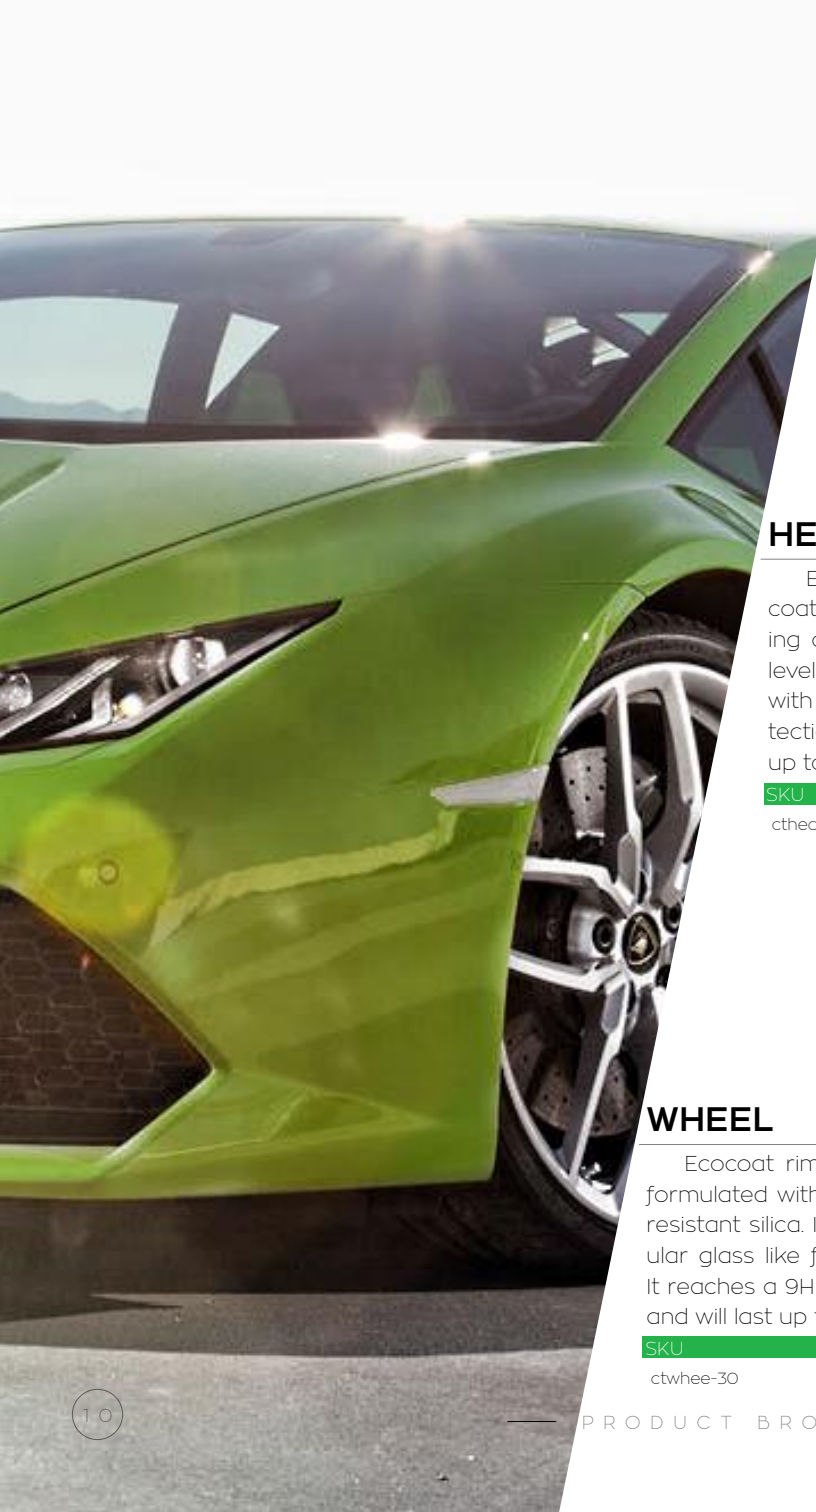

PREMIER

Ecocoat Premier, is a waterbased, zero VOC nanotechnology hydrophobic coating that is non-yellowing, high gloss and slick and dirt repelling that crosslinks with all surfaces of your vehicle creating a very durable protection. (up to 6 months)

SKU	Volume
ctprem-500	500 ml
ctprem-5000	5000 ml

WINDOW

Ecocoat window is a 2 component glass coating formulation that creates a super durable water repellent surface. Coated surface are resistant to water spots and high wiper wear. This allows for a safe driving condition during heavy rain, as the rainwater will roll off at 50km/h. Not only does it repel rain, but also dirt and it lets your windows defrost much faster and easier.

SKU	Volume
ctwind-30	30 ml
ctwind-50	50 ml

HEADLIGHT

Ecocoat headlight is the best anti yellowing coating for polycarbonate headlamps. The coating adheres to the headlight on the molecular level and crosslink to create a glass like finish with amplified shine and clarity and superb protection against oxidation and loss of clarity for up to 12 months.

SKU	Volume
cthead-30	30 ml

WHEEL

Ecocoat rim is a premium wheel coating formulated with more than 90% of high heat resistant silica. It forms an interlocking molecular glass like finish with amazing protection. It reaches a 9H pencil hardness upon full cure and will last up to 12 months.

SKU	Volume
ctwhee-30	30 ml

TRIM

Ecocoat trim is the most technologically advanced coating to protect your trim, rubber and plastic parts. It is highly reactive coating that instantly permeate and forms a chemical bond on a molecular basis with the surface. The result is a rejuvenated, enriched and protected surface with higher hardness (up to 6th pencil scale). The protection will last for up to 2 years.

SKU	Volume
cttrim-30	30 ml

FABRIC

Ecocoat fabric, is a user and environmentally friendly waterbased, zero VOC coating. It adopts the Lotus Effet creating an invisible molecular protection layer which covers each individual fibres that repels undesirable liquid, dirt and even UV-radiation.

The formulation is based on the emerging water based nanotechnology and can be used on virtually any porous surfaces protecting coated textiles and permeable leather against water, liquids ,dirt and stains without altering the flexibility, appearance or odour of the coated surface.

Compared to other products, ecocoat fabric is 100% breathable.

ECOSHINE SPEED PROTECT SERIES

WAX

hybrid silica wax, made of 100% pure carnauba wax with the added benefit of the strong binding strength from the silane and siloxane technology.

Ecocoat wax is a durable hybrid wax that simultaneously cleanses, rejuvenates & protects automotive paint. Weathered paint finishes are rejuvenated and micro scratches are hidden by filling super fine scratches & swirl marks on existing paint work. This results in an extremely reflective, hydrophobic surface that is extremely easy to clean, repels water, oil and dirt that that can last up to 3 months.

clwash-5000	5000 ml

ECOCLEAN CLEANING SERIES

PRECOAT

a ready to use formulation that eliminate oils, polishes, waxes, grease, glue and other stubborn contaminants easily without risk of marring.

Ecoclean Precoat, is an intense cleaner designed to dissolve oil particles and remove polish residue to prepare the paintwork for IGL Coatings Ecocoat series. Bonds of waxes, oils and polishes are weakened by Precoat and are wiped off from the surface easily. Creating the possibility to acquire the perfect Ecocoat finish

SKU	Volume
clprec-500	500 ml
clprec-5000	5000 ml

INTERIOR

a miracle in a bottle to deal with stubborn stains in the interior of the vehicle. Originally formulated as textile cleaner but it had since then been used as a super cleaner for all interiors

Ecoclean Interior is a natural, citrus scented extremely powerful textile, carpet, upholstery, leather, vinyl and all things interior cleaner. Due to its plant derived formulation, Ecoclean Interior is biodegradable.

Formulated using a powerful soy-based solvent, this product easily lifts stains away from the surface without any sticky residue left behind. It is suitable for automotive and household use.

clglas-5000	5000 ml

MULTI

An all purpose heavy duty degreaser that cleans hard surfaces, dissolves oils, grime, dirt and dusts.

Ecoclean multi, is a natural cleaner that removes grease, oil, dust and dirt dissolve with ease. A unique blend of natural ingredients delivers powerful results. It is a great all around natural cleaner that cleans from vinyl to metal and from auto to home.

SKU	Volume
clmult-500	500 ml
clmult-5000	5000 ml

IRON

Ecoclean Iron reduces the rust particles in the brake dust, loosen the dirt particles and forms the deep red Iron Thioglycolate complex

Ecoclean iron, is a waterbased, highly effective, acid-free & pH balanced (~7pH) iron remover. It is also effective and safe for use on all car surfaces and will not deteriorate clear coats. ecoclean iron contains unique chemical ingredients that effectively dissolves the loose iron by forming a water soluble iron complex and putting a stop to corrosion.
